Benton County

HISTORY OF THE ENUMERATION PROJECT

Historical information on the cemeteries included in this volume was obtained from the Benton County Historical Museum, the WPA Historical Records Survey, and from interviews.

Every effort has been made to ensure the accuracy of these records. Each cemetery, except the small family burial grounds, was visited and enumerated. Collected data was then cross-checked with the information compiled by the following sources: Winema chapter of the Daughters of the American Revolution (1948); records kept by individual cemetery associations and sextons; old records from some funeral-homes; and with a partial list of Civil War soldiers buried in Benton County, which was provided by the Genealogical Forum of Portland.

Headstones were found with names that were not on any list; there also were listings of burials, but no stones. Sometimes deterioration of stones made it difficult for the reader to differentiate between certain letters and numbers. For example: C-G, T-F-E, I-L, M-W, Jan-Jun, 6-9, 8-9, 3-9, 1-7. Occasionally at a death, a marker was erected, then when the surviving spouse died another stone was put in place with both names on it. At times, the names of both husband and wife are on a headstone, with a death date after only one name, indicating that the other one probably was still living.

ACKNOWLEDGEMENTS

The committee wishes to express appreciation to those who preserve the cemetery records. In every instance, these dedicated volunteers were pleasant, cooperative, eager to help, and generous with their time.

According to folklore: "If you set a stone in the light of the moon, it will stay put; but if you set it in the dark of the moon, it will raise out of the ground".

THE GENTLE ART OF STONE-RUBBING ©

by Valerie K. Nichols

Scattered among the pages of this book are some examples of decorations found on tombstones located in Benton County. The original designs were rubbed directly from various stones, then photocopied and finally reduced to fit the spaces available.

Rubbings allow one to make an exact copy of a stone, sometimes bringing forth decorations barely visible to the eye. At times they can help to determine whether a worn number is actually a 3, instead of a 5 or an 8, and a month in question might prove to be May rather than Mar.

The equipment needed is simple:

- 1) Bristle scrub-brush (never metal) or a block of styrofoam
- 2) Orange-stick for cleaning out grooves (only if needed)
- 3) Pink tape, type used by hairdressers (this works as well as masking tape and does not seem to leave a residue)
- 4) Pellon (non-fusible), the kind used for medium to heavy-weight fabric (this is a non-woven fabric used to interline garments). Roll, not fold, the pellon
- 5) Heelball (black or brown wax used by shoemakers)
- 6) Pad and pencil for recording location of both cemetery and stone, copying the inscription, date of rubbing, etc.
- 7) Scissors or knife for cutting pellon
- 8) Clippers for trimming grass
- 9) Moist disposable towelettes for cleaning hands afterwards
- 10) Large plastic bag for carrying items, also to lay on the ground to keep pellon clean and dry, and/or to kneel upon

The technique is even simpler:

Choose a day that is dry and not windy. Select a stone that has the design mostly on the surface, as one that is deeply carved does not produce the best results.

NOTE: TOMBSTONES, ESPECIALLY OLD ONES, CAN BE VERY UNSTABLE.
NEVER ALLOW CHILDREN TO PLAY AROUND CEMETERIES.
ALWAYS TRAVEL WITH ANOTHER ADULT.

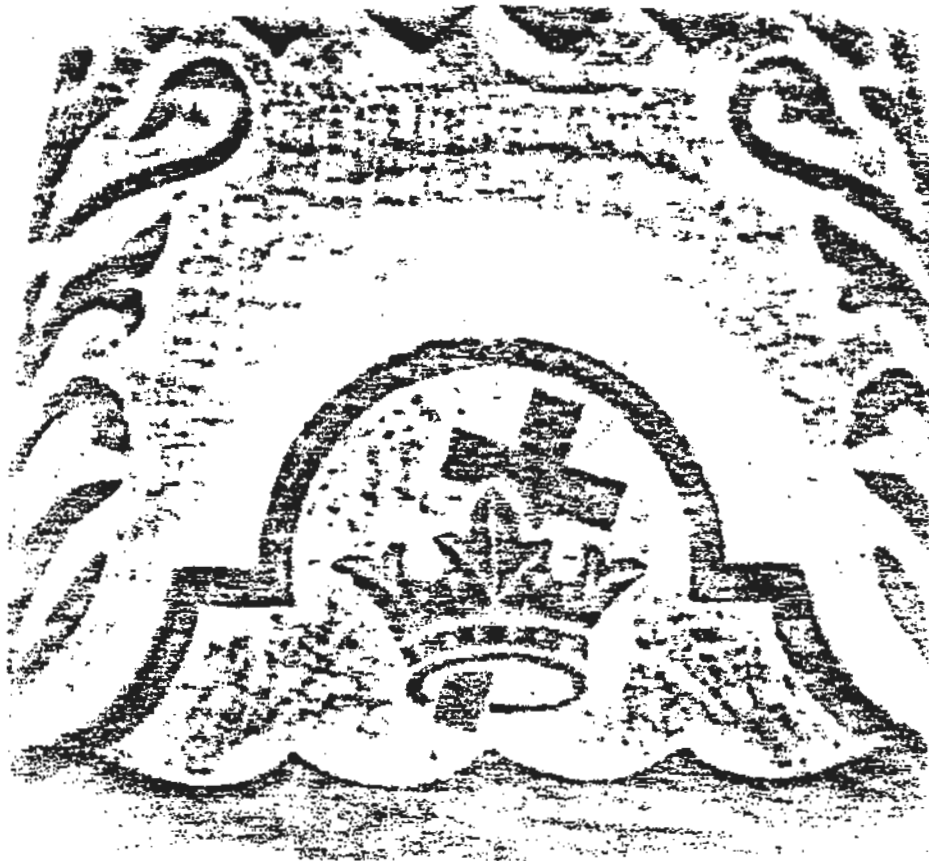

Trim away any grass that might interfere with the work. Brush off any surface dirt or lichen. Use an orange-stick in the grooves only if it is needed. Observe the stone carefully to get a feeling for the details in the design. Roll enough pellon over the stone to cover the area to be rubbed, plus some extra. Some wide stones may require two lengths cross-wise to cover. Firmly secure the pellon to the stone using the pink tape. Begin by rubbing a small area, lightly at first, then a little heavier as the design begins to appear, but ALWAYS in the same direction. Before removing pellon, feel the stone carefully to see that the entire design has been included, and check that the rubbing is of an even color. Remove the tape, record any desired information along the back bottom edge of the rubbing, then roll it up for storage. Do NOT iron. The rubbings will last indefinitely.

ALPINE

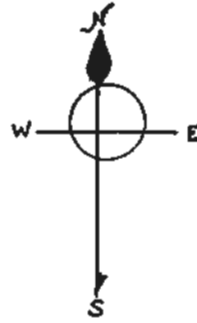

T.14 S R.6 W S.24 SWX
Enumerated on 30 September 1987

The ALPINE CEMETERY is located immediately north of the town of Alpine and on the west side of Bellfountain Road. However, the cemetery entrance is from a long gravel lane located on the north side of Alpine Road, about one-tenth of a mile west of the Bellfountain Road intersection.

The cemetery, originally called "Simpson's Chapel Cemetery" is located on the Jesse Belknap Donation Land Claim. The earliest marked grave is that of Jane Howard (2 March 1851), wife of William Howard. It is possible that burials were made at an earlier date. The cemetery location suggests that it may originally have been the Belknap family burial plot. In 1896 the cemetery was platted with Benton County as the Simpson's Chapel Cemetery. Cemetery representatives at that time included S.R. Hawley, Robert Kyle, S.A. Tharp and G.W. Howard. In 1904 Simpson's Chapel, originally located between Alpine and Bellfountain, moved to Alpine. The new church, located on Alpine Road just south of the cemetery, burned down in the early 1970's. The cemetery is still in use today.

BELLFOUNTAIN

T.14 S R.5 W S.7 SWX
Enumerated on October 7 & 14, 1987

The BELLFOUNTAIN CEMETERY is located on a hillside off Dawson Road, one-half mile east of the town of Bellfountain. The entrance is from a gravel drive on the north side of Dawson Road.

Heman Chapin Buckingham, who came to the area in 1848, took up a Donation Land Claim just south of Bellfountain. He also purchased a part of the Jonas Belknap Donation Land Claim, and in the early 1850's donated ground for the cemetery. This land was first deeded to a Board of Trustees to be held for the use of the community; later a corporation was formed. The cemetery plat was filed with Benton County in March 1900. Additional land was donated by J.P. and Vernon Gragg, making a total of 11 acres. The oldest marked grave (22 July 1859) is that of the infant daughter of J. and P. Kelsey. It is likely that there were burials earlier in that decade.

An early pioneer buried here was Alexander Liggett (1788-1864) who came in the eighteen-forties and took a claim near the Independent schoolhouse southwest of Corvallis. In 1852, when the county was organized and school districts formed, there was already a Liggett schoolhouse, the first schoolhouse in what was then named the Independent district.

Also buried here are the donors of the ground: H.C. Buckingham (1812-1881) and his wife, M.J. Buckingham (1833-1894), and many of their descendants. Among others are James E. Edwards (1817-1906), and his wife Mary (1819-1885). Edwards came in 1852 as a member of the United Brethren Missionary party. This party was led by Rev. T.J. Conner, who founded Philomath College, and by Rev. Jeremiah Kenoyer. Edwards took a Donation Land Claim on the Alsea River but soon came across the hills and located near Bellfountain. It was he who gave his name to what had first been the Reeves Cemetery, about a mile northeast of Bellfountain cemetery.

Many of the Starr family are buried here: Rev. John Starr (1794-1869) and his wife Eliza A. (1818-1893); M. Lee Starr (1837-1916); Oren Henry Starr (1847-1926) and his wife Mary Ann (1858-1922).

Other pioneers here are: Rev. A. Larkin (1839-1918); Ann, wife of A. Hurlburt (1809-1863); R.A. Hurlburt (1830-1916) and his wife Sophia (1835-1909); J.H. Kindall (1798-1875) and his wife Fanny (1800-1870); and Joseph Gragg (1827-1906) and his wife Lovina (1843-1903).

MONROE

T.14 S R.5 S S.28 SE¼ of NE¼
Enumerated on Oct. 28, and Nov. 4, 1987

The MONROE CEMETERY is located on the west side of Highway 99W, approximately three-fourths of a mile north of the town of Monroe on the slope of a low hill.

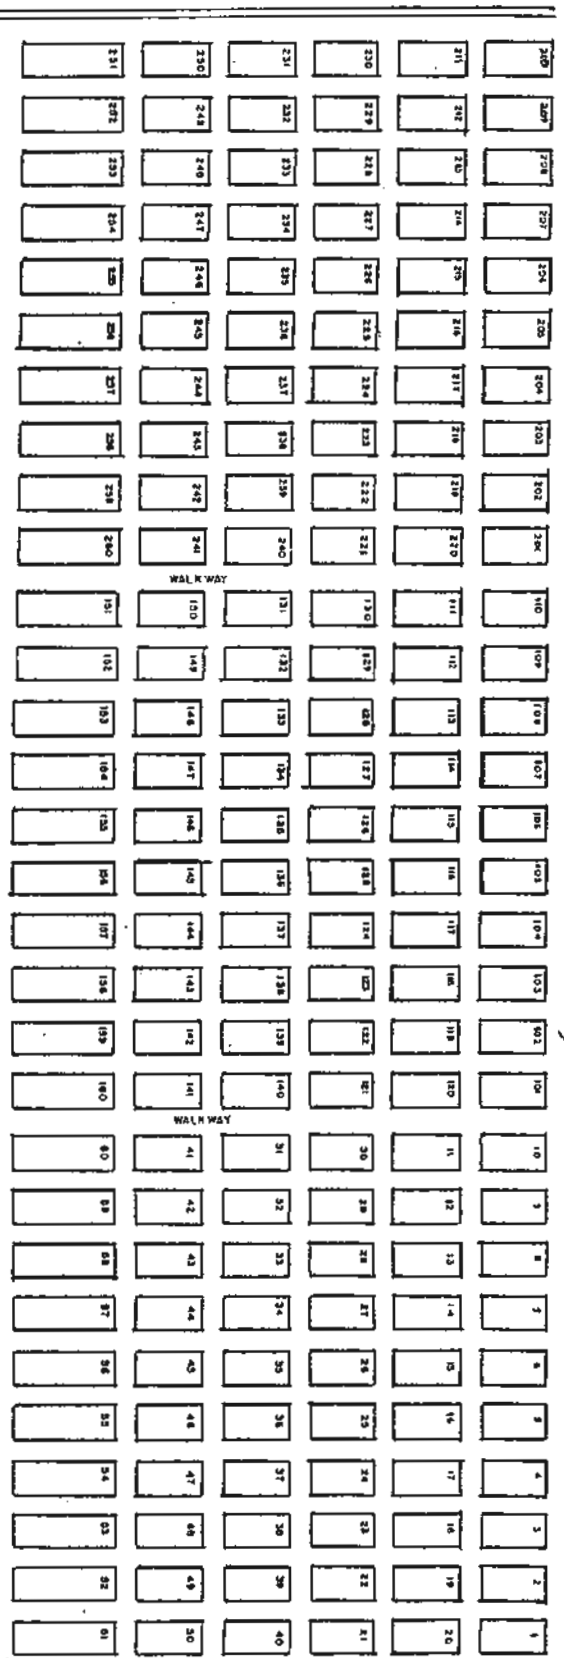

This cemetery is on the original donation land claim of Roland and Elizabeth Hinton, who settled here in 1847. Like most of the early cemeteries, it began as a family burying ground. The oldest marked grave (1850) is that of one of the Hinton children. Elizabeth Hinton was buried here in 1860. Also among the older burials are Nancy, wife of Aaron Richardson, (1862); James Murray (1794-1862); Robert Herron (1821-1855); George Carson (1808-1869); and Augustus Honig (1826-1855). Another early marker reads "Claborn W. Wild--drowned--Feb. 14, 1857--aged 33 years". It is said that he drowned in the Long Tom river--a stranger whose people were unknown. There are no markers for any of the burials in what is called "Potters Field".

The Monroe Cemetery Association was officially formed in 1889. However, the Original Record Book of the Association shows the first meeting was held November 24, 1888. Those in attendance were Wm.D.Barclay, Robert Brown, Wm.Bundy, Jas.M. Heron, Thos.D.Hinton, Wm.H.Levaugh, James Martin, Sam Rickard, and G.R.Taylor. Elected as trustees were: Wm.Garlinghouse, John Rickard, Hugh Herron (Chairman) and Wm.J.Kelly (Clerk). On Dec. 7, 1889 the Trustees and others subscribed \$130, which was used as follows: \$125 for the purchase of five acres from Susan and Samuel Stamms, \$2.50 to record the Articles of Incorporation, fifty-cents for books and postage, leaving a balance of \$2.

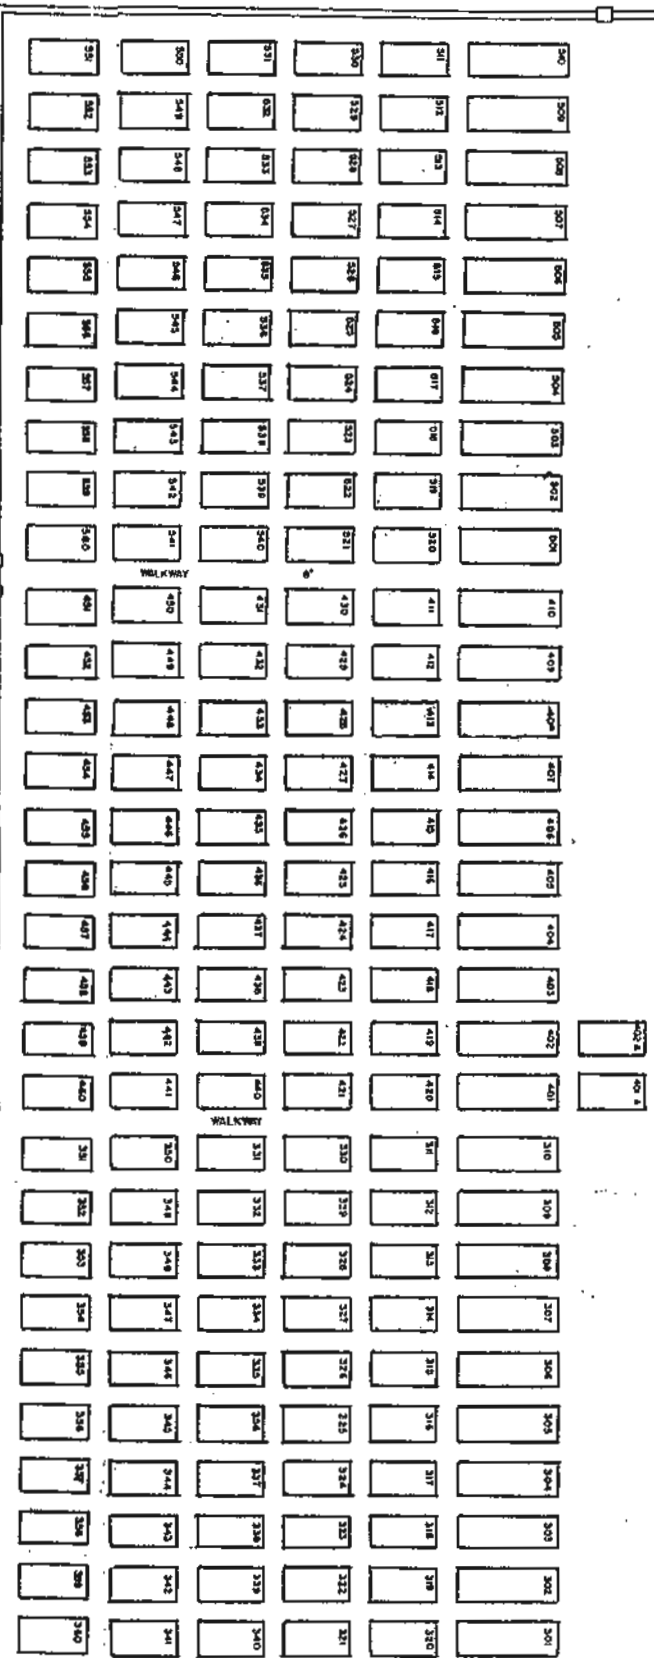

At each meeting afterwards, they collected money amongst themselves until they had the grand total of \$93.55. The full amount was spent to survey the ground, for supplies (nails, lumber, screws, posts), a record book, labor and incidentals. Seventeen men did the work (combined total of 38 days). Then they "grubbed the cemetery ground over", sold the "grub wood" for \$3.25 and used that amount to buy locks and chains for the gate and to purchase paper for the plat map.

At the annual meeting on Nov. 5, 1892, it was decided to price lots at \$15 (10'x30') and \$10 (10'x20'). Afterwards this was changed to \$7.50 and \$5 respectively. In 1945 Bertha (Mills) Smith and her two children, Marjorie and Roger I. Mills, donated all of block 5, consisting of one acre on the east end of the cemetery. In 1962 the Association raised prices of lots: \$45 (10'x30' with 7 spaces), \$35 (10'x20' with 5 spaces), and \$15 (4'x10' single grave). Space #1 is always at the north end of the lot. Headstones are always at the west end of the lot.

NORMAN MILLER
22 May 1888----29 Sept.1989
Caretaker, Monroe Cemetery 1939-1989

Shortly before his 100th birthday, Norman Miller conducted the enumerators of the Mid-Valley Genealogical Society on a tour of the cemetery that had been in his care for fifty years. Even though he had wanted to retire for several years, no one else would take over the job. As he walked the grounds with the group, he had many tales to tell about the numerous friends buried in the Monroe Cemetery. He summed it up by saying with affection and pride--"There's a bunch of old pioneers buried here."

A bit of folklore shared by Mr.Miller:
"If you set a stone in the light of the moon, it will stay put; but if you set it in the dark of the moon, it will raise out of the ground."

Norman Miller died on 22 September 1989, at the age of 101 years, 4 months, and 7 days. He was an outstanding example of the dedicated volunteers who preserve the records and maintain the grounds of the local cemeteries. Mr.Miller is honored for his long life and his faithful service. He is buried beside his wife, Bertha, in the Monroe Cemetery.

OBITUARIES ----- GAZETTE-TIMES

Norman Miller

May 22, 1888—Sept 29, 1989

Graveside services for Norman William Miller, 101, of Monroe, will be held at 2 p.m. Wednesday at the Monroe Cemetery. The Rev. Carol Thompson will officiate.

He was born on May 22, 1888, in Talmo, Kansas, to Harvey and Mary Kuhnle Miller.

When a child, he moved with his family by train to Couer d'Alene, Idaho, and then by covered wagon to Sweet Home, Ore.

He and his family lived in Sweet Home for several years, returned to Kansas for two years, then moved to Monroe, Ore.

He married Bertha M. Hewitt on Jan. 6, 1913. She died on June 14, 1975.

Mr. Miller worked as a farmer

and a logger.

He had served on the grade school, high school and telephone boards in Monroe and was a board member of the Monroe Cemetery Association.

He was a life member of the Corvallis Elks Lodge 1413.

Mr. Miller is survived by his daughter and son-in-law, Helen and Garth Larkin of Alpine; five grandchildren; five great-grandchildren; one great-great-grandchild and numerous nieces and nephews.

Visitation will be held on Tuesday from 1 to 7 p.m. at McHenry Funeral Home.

Memorials may be made to the Monroe Cemetery Association in care of McHenry Funeral Home, 206 N.W. 5th St., Corvallis, Ore. 97330.

MOUNT UNION

T.12 S R.5 W S.7 SW¼
Enumerated on August 26, September 2, 9, 16, 1987

The MOUNT UNION CEMETERY (also known as Newton Cemetery) is located east of Mount Union Avenue approximately one-quarter of a mile north from the intersection of Bellfountain Road and Plymouth Road. The cemetery is situated on the eastern slope of the hill with views to the north, south, and east.

An unusual event took place in the year 1861 when this cemetery was established by Reuben Shipley, an early black pioneer of Benton County, who donated two acres of land on the condition that black people could be buried there. The cemetery property was deeded to Benton County in 1861 and officially platted in 1879.

Reuben Shipley came to Oregon in the 1850's with the Shipley family in exchange for his freedom. Eldridge Hartless, a neighboring pioneer of the Plymouth community, employed Reuben Shipley on his farm. Reuben saved \$1,500 and purchased eighty acres of land, part of which is the Mount Union Cemetery. The cemetery now has 6.7 acres.

In 1851, Reuben Shipley married Mary Jane Holmes after purchasing her freedom for \$700. This is believed to be the last case of a slave being sold in Oregon as property. Together, they built a cabin, farmed, and raised six children. The family fully participated in the social life of the Plymouth Community. Reuben and Mary Jane Shipley are buried in this cemetery, as well as Mary Jane's second husband and some of her children.

Abiathar and Norrie Newton had Donation Land Claims just to the north and west of the cemetery, and during the first few years there were many Newtons buried here. During the 1920's and 1930's some called this the Newton Cemetery.

Graverows run north and south. Most of the tombstones and inscriptions face west, with the stones placed at the west end of the grave. Older sections are recognizable but new and old burials are intermixed.

Scattered shrubs and grasses are interspersed among the graves, along with several big-leaf maples.

OAKRIDGE

T.13 S R.5 W S.31 NEX
Extracted from Records
by W.D & Virginia E. Hoeye
Enumerated on 27 September 1979

The OAKRIDGE CEMETERY is located about six miles southwest of Corvallis and is on private property. It is on the east side of Bellfountain Road, slightly less than one-half mile north of the intersection with Lewellyn Road.

The cemetery was associated with the Oakridge Presbyterian Church, formerly located on the north side of the cemetery. The church was organized in 1877 by W.C.Kanter with 18 members. The first church was built in 1878 and existed until 1938. However, it is not known if they used the same structure through those years. W.H.McBee, whose house (1896) is located to the northeast, was also a founder of the Oakridge Church and served as superintendent of the Sunday School for 35 years.

The earliest grave discernable today, dates from 1881, but it is possible there were earlier burials. The cemetery was dedicated and the plat, signed by Trustees John Todd, A.Nish, and J.C.Walker was filed in 1890. A metal gate frames an arch made of concrete bearing the inscription "Oakridge Cemetery". A cement walk runs east from the gateway nearly the entire length of the cemetery. Several family plots are marked off by fencing or concrete borders. The most notable thing about this cemetery is the large amount of concrete work done by cement craftsman, Herman H.Heuckendorff of Corvallis. In addition to the sidewalk and curbsings, it is thought that he probably made the cement gravestones as well as the Oakridge sign. His name appears on his brother's stone, however, by the time Herman Heuckendorff died, the cemetery was overgrown and appeared abandoned, therefore Herman's sister chose to have him buried at Oak Lawn Cemetery.

In the 1930's the property was sold. The Presbytery was to have retained the cemetery parcel, but through a mix-up during the transfer of the property, the cemetery was included in the sale and is now in private ownership.

REEVES/EDWARDS

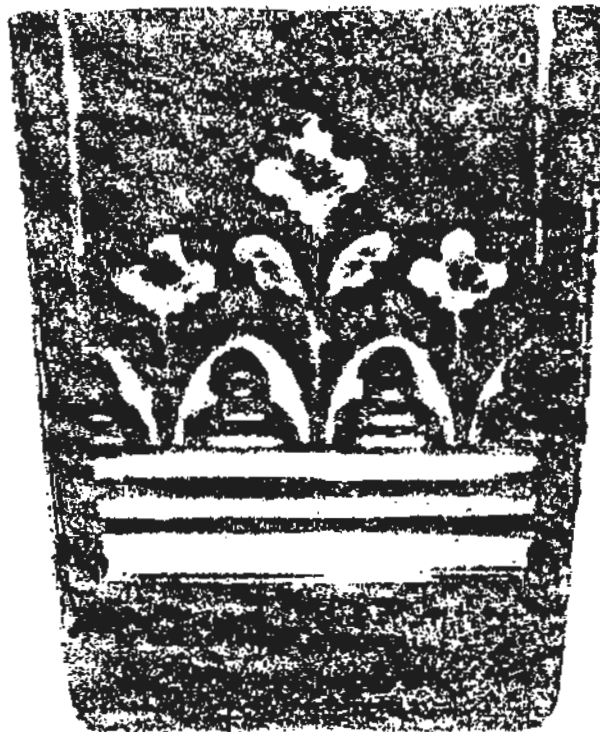

T.14 S R.5 W S.7 NWX

Extracted from the 1984-86

Cultural Resources Survey Records--II
of the Benton County Historical Museum

The REEVES/EDWARDS CEMETERY is located on the north side of McFarland Road approximately eight-tenths of a mile northeast of the intersection of McFarland Road and Dawson Road. A wire fence encloses the small burial plot.

The Reeves/Edwards cemetery is situated on the former Thomas Reeves Donation Land Claim. Thomas Reeves came to Benton County in 1845 and is considered Benton County's first Euro-American settler. The earliest death date recorded on a gravestone is that of Laura Foster, infant daughter of John and Mary Lloyd Foster. The date of 1849 indicates that this is one of Benton County's oldest cemeteries. The graves of some of the earliest settlers of this region are located here, including the Foster, Currier, Lloyd and Reeves families. There are 16 marked stones with at least 4 or 5 unmarked burials. The cemetery is also referred to as the Edwards Cemetery although none of the Edwards family are buried here. The name probably comes from the fact that James Edwards owned the property surrounding the cemetery for many years, beginning in 1862. The James Edwards house and barn are located below the cemetery, to the south. The last burial in this cemetery was that of Thomas Reeves in 1886. The Reeves-Edwards Cemetery was never surveyed nor platted.

ST. ROSE CATHOLIC

T.14 S R.5 W S.32 NEX
Enumerated on 4 November 1987

The ST.ROSE CATHOLIC CEMETERY is located on the north side of Coon Road about seven-tenths of a mile west of the Monroe city limits. The cemetery is on a hillside overlooking the Shafer Creek Valley to the south. A metal archway with the name of the cemetery frames the entry gate and a large wooden cross stands in the center of the burial ground.

The cemetery was established about 1885, a short time after the St.Rose Catholic Church was built. It is the only Catholic Cemetery in Benton county outside of Corvallis. The cemetery has never been platted with the county. Buried here are the Wilhelms, a prominent Monroe family, who were largely responsible for the construction of the Catholic Church in Monroe.

Earliest marked grave is: Catherine Knebel, 1865-1888.

WINKLE BUTTES

T.13 S R.5 W S.22 NEK

The two buttes--one high and one low--known as WINKLE BUTTES (or sometimes as WAGNER BUTTES) are located on the east side of Highway 99W about six miles south of Corvallis. There are three burying grounds located in the vicinity of the two buttes. All of these gravesites are located on private property and are not accessible to the public.

WB #1 -- IRWIN BURYING GROUND: located at the southwest base of the smaller of the two buttes.

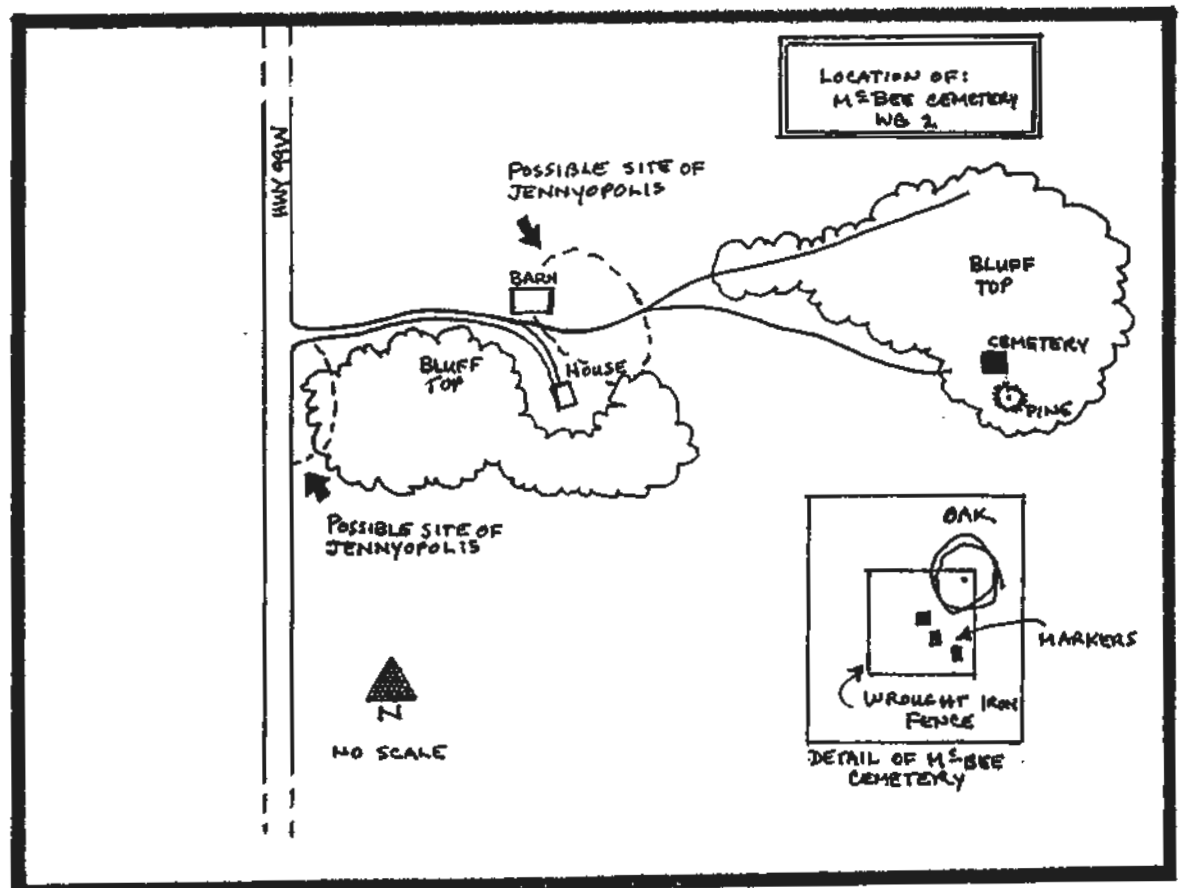

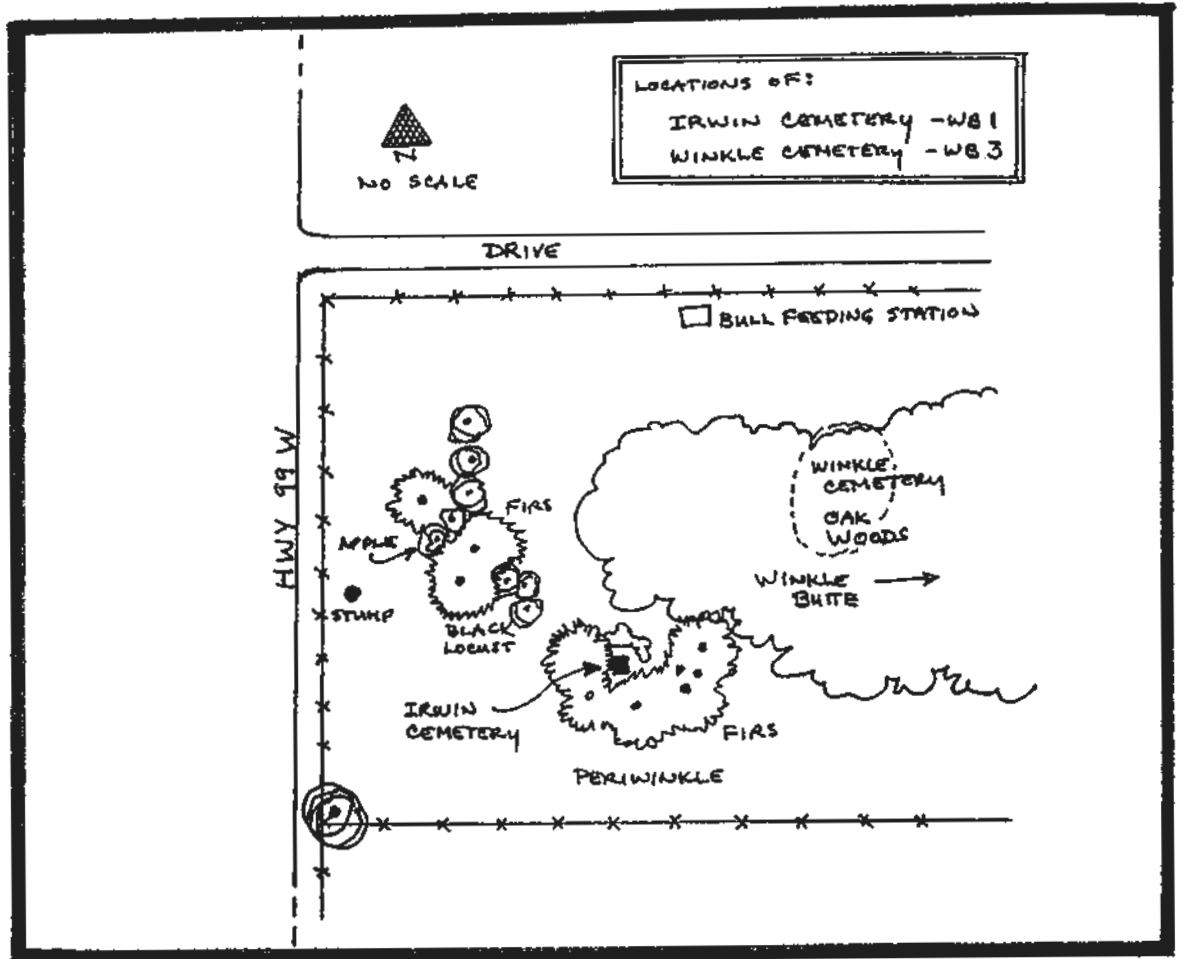

WB #2 -- McBEE BURYING GROUND: situated at the top of the larger of the two buttes.

WB #3 -- WINKLE FAMILY BURYING GROUND: positioned near the top of the smaller of the two buttes.

JENNYOPOLIS

In the vicinity of the smaller of the two buttes, there was a small community established--Jennyopolis. Richard Irwin, an 1850 immigrant to Oregon, built a store, post office and grocery on his Donation Land Claim in 1851. The site is being studied to find the exact location, so that an Historical Marker may be placed along the highway.

The IRWIN BURYING GROUND (WB #1) is located on the east side of Highway 99W at the southwest base of the smaller of the two buttes known as Winkle Buttes. Sometimes these hills are referred to as Wagner Buttes. The cemetery is on private property and not accessible to the public.

Richard Irwin, a native of Ireland, emigrated to Oregon in 1850. In 1851, he took up a Donation Land Claim on the west side of Winkle Buttes. In this area, he established a post office, store, and grocery, known as Jennyopolis. The Irwin Family burying ground was evidently established upon the death of Irwin's infant son. Members of the Kompp Family are also buried in this plot. Louisa Kompp was Richard Irwin's wife. Louisa's parents are buried here. The latest date recorded on a gravestone is 1905.

The McBEE BURYING GROUND (WB #2) is located at the top of the larger of two buttes known as Winkle Buttes (sometimes called Wagner Buttes). Winkle Buttes are on the east side of Highway 99W about 6 miles south of Corvallis. These gravesites are on private land and not accessible to the public.

There are only two marked burials at this site those of William and Elizabeth McBee. Their graves are enclosed by an ornate cast-iron fence with a gate. This fence, which has a patent date in the 1860's, is identical to one located in the Armstong Cemetery.

The WINKLE FAMILY BURYING GROUND (WB #3) is located on the east side of Highway 99W at Winkle Buttes (sometimes called Wagner Buttes). The two buttes--one high and one low--are situated 6 miles south of Corvallis. The Winkle Family Burying Ground is positioned near the top of the smaller of the two buttes. The cemetery is on private land and is not open to the public.

This cemetery was established by the Winkle family, probably in the 1860's, or possibly earlier. Not long after establishing his claim, Isaac Winkle moved to another farm north of Corvallis and his son Wiley farmed the original claim. There are six marked graves. The earliest marked death date is that of Martha Winkle (1867), wife of Isaac. There are no burials recorded after 1875. All the burials are members of the Winkle family.
