MARRIAGE RECORDS OF UMPQUA COUNTY, OREGON TERRITORY, VOL. A
 copied by Mary Brummett

In the Douglas County, Oregon courthouse, there are several books (one volume of marriages) pertaining to Umpqua county which was only in existence for a period of about 11 years. It was formed from Benton and Linn counties in 1851 and then absorbed by Douglas county in 1862. It will be to the searcher's advantage to send for a photocopy of the actual entry of the marriage, for there are many entries with additional data included that give parents, witnesses, church, location of wedding, minister or Justice of the Peace, etc. Some marriages for earlier years appear to have been added or recopied at a later time and some marriages were not recorded for several years after the stated date of marriage. Those which were recorded out of sequence will be marked with a (*). There is one instance where the entry indicates a man married a man but a later entry for the same date of marriage with a variation in the names sets it right. This would seem to indicate that this book was a copy of some other records but we did not locate any additional data. Some of the marriages (very few) are also of record in the Douglas County Marriage Records. The indexes to these will be published later in the "End of the Trail Researchers Quarterly". Photocopies of the entries are available for 50¢ per page and in most cases this will be sufficient. In looking at the chronological listing, it is obvious that there is only one entry for the year 1861. Why this is so, we don't know because there are at least nine entries for 1862. The actual recording of marriages begins with a period from July 29, 1852 to May 22, 1863. The earliest marriage entered was for 13 June 1851, but was not recorded until 1856.
